

Excellence, Confidence, Compassion, Happiness

Personal Responsibility, Social Responsibility, Environmental Responsibility

What's been happening?

As part of our school development focus this year, we are excited to be exploring different ways that we can help our children link new learning to prior learning and skills they already have. We will be developing the children's skills of metacognition. Research has shown that independent problem solving and links to wider understanding help new learning to stick. We will be focussing on ways to ensure all children continue to develop their independence, thirst for knowledge and determination to succeed across the curriculum.

We want to thank Horsforth Climate Action for supporting Miss Lowe and the Climate Crew in purchasing 20 compost caddies. The caddies will be used by our children to join our community in composting alongside the Compost Collective.

What's happening next?
