Year 3K – Celebrating their learning!

Our Year 3s have been working exceptionally hard this half term learning all about the Tropical Rainforests of the world. In their Geography work, they have focused on what the climate is like in these areas of the world where Rainforests grow and why this occurs. What is special about their location to create such a unique climate? The children began to understand that this was related to how close these areas are to the equator. Next, they have been working on what makes a rainforest. Understanding that there are different layers and what animals inhabit these layers and why.

Art links nicely with this topic as children have been working on understanding who Henri Rousseau, the French painter, was. What was fascinating to learn was that Henri Rousseau never actually visited a rainforest, and he took his inspiration from the botanical gardens and illustrations in books. The children are currently developing their own artwork based on his drawings by using different types of paints and collage material to demonstrate the layers of a rainforest.

Finally, a huge well done to Lapwing class for the fantastic assembly on Wednesday! The children worked so hard in such a short space of time to bring all this hard work together to reflect their learning. The songs were delivered with enthusiasm and passion, and all the children deserve a huge amount of praise for all the work they put in at home to deliver their lines.
